

Max. extérieur:	2-6"
La lame de coupe:	TM 200 - TM 300

Planetary cutting machine for corrugated metal and PTFE hoses.

Cutting results that often eliminate an additional step. This completely unique planetary cutting machine delivers almost scrap-free production and high efficiency.

With a completely variable centering clamp system, all hose OD to the maximum rating for the machine can be cut. Approximate cutting time is 25 seconds for 1 ¼" (ø DN 32

CARACTERISTIQUES TECHNIQUES :

Modell:	USC 10	USC 20	USC 30
Cutting blade	200 x 2 x 25,4 mm	250 x 2 x 25,4 mm	350 x 3 x 32 mm
Wire braid	< 2 "	< 4 "	< 6 "
max. rotation trimming	7200 rpm	7200 rpm	4100 rpm
max. rotation wire forming blade	60 rpm	60 rpm	30 rpm
Drive	5 kW	5 kW	5 kW
Pneumatic	6 bar	6 bar	6 bar
Noise level	85 dBA	85 dBA	85 dBA
Working height	1020	1100	1100
L x B x H (mm)	730 x 670 x 1400	730 x 770 x 1500	900 x 1250 x 1520
Weight	245 Kg	340 Kg	580 Kg

Avantages :

- Moteur spéciaux de coupe
- universal
- Lames de tronçonnage éprouvées
- Moteur frein
- CE Conforme
- 2 ans de garantie

Package et accessoires

Développez cette machine à tout moment en utilisant les accessoires suivants:

TM C ; UAT 4 ; UMS4 ; USH4 ; UVC ;
UWT2 ; UHG14/ext.
