

Test pressure: **100 - 1000 bar**

Testing has never been easier and quicker. With the P300, you can perform precision tests of hoses of up to 2500 mm in length and with pressures up to 1000 bar.

Test up to 120 hoses per hour, making use of 4 parallel test lines and our quick-clamping system. You can choose between automated and manual setup mode. The P300 comes with a number of standard features such as an internal lighting and a portable power aggregate, and caters for individual test logging.

CARACTERISTIQUES TECHNIQUES

Modell:	P 300
Test pressure	100 - 1000 bar
Control	Control B + Touch
Drive	Hydraulic aggregate 3kW with intesifier
Flow	13 l/min.
Capacity	400-50-3 (VAC)
Tank dimension (mm)	3750 x 2400 x 870
Tank dimension closed (mm)	3750 x 1450 x 870
Test bench dimension (mm)	-
Aggregate dimension (mm)	830 x 740 x 1340
Reservoir capacity	140.00 l
Alternative drive	-
Volume (dBA)	70
Weight tank dimension	1000 Kg
Weight aggregate	200 Kg

Aventages :

- Sans lubrification
- Universal
- CE Conforme
- 2 ans de garantie
