

With UNIFLEX test benches you do not only have the possibility to test 2 or 3 but 4 hose assemblies at once! Test with the known UNIFLEX precision and thanks to the new procedure accelerated by a factor of four.

Combined with the proven quick coupling system your hose assemblies will be connected to the test bench within second.

Testing is made this easy with the UNIFLEX Hose Manifold (Accessory No. 405.6 for P160 and P160 Ecoline)
